Brian P. Frasier has been practicing law for more than 20 years specializing in insurance defense. His experience ranges from premises liability and fraud/EUO to automobile accident defense, first- and third-party claims, UM/UIM, and PIP. He also defends clients on a variety of bodily injury, wrongful death, and dram shop claims.

Brian has the ability to develop creative litigation strategies from pre-suit, through trial, including appeals and works closely with his clients to ensure they are using proper claims handling procedures and mitigating potential liability in complicated claims decisions. He prides himself on his attention to detail during investigations, especially when investigating possible fraud scenarios and illegitimate business practices. He has largely worked with SIU teams with major national insurers to support federal fraud litigation claims against provider networks, as well as defending individual claims.

Prior to joining Kopka Pinkus Dolin's Farmington Hills, Michigan office, Brian worked for law firms in many capacities, including marketing, content writer, business development, associate, senior attorney, and partner.
